

Powering the hydrogen future™ with our outstanding fuel cells and service.

IE-SOAR 2.4kW

IE-SOAR™ fuel cell power modules directly replaces a battery and give much longer flight times.

Enable previously impossible applications – your business is no longer constrained by flight time.

Unlock BVLOS operations – BVLOS makes sense with the range provided by fuel cells.

Increase operational efficiency – spend more time in the air and achieve more.

Technical benefits

- ✓ Designed for safety and reliability. Single point failure tolerant and built in power system redundancy.
