

Intelligent Energy Charitable Trust

Community Safety Education CIC

Intelligent Energy Charitable Trust first launched in January 2019 with the aim to make a positive impact on the local community it operates within. The Charitable Trust supports charitable and voluntary organisations, local to Intelligent Energy's headquarters in Loughborough, which support and aid amongst others; community groups, young people, sport and lifelong learning.

The Trust currently distributes £100,000 each year and several organisations have already benefited from funding awards, including Community Safety Education CIC who were awarded £2,450 in 2026.

Community Safety Education CIC is a non-profit working with young people in communities experiencing disadvantage.

Moneywise is a financial literacy and awareness programme that is designed to increase awareness of modern financial risks, such as gambling in gaming, improve decision-making skills, knowledge of important concepts and financial confidence.

The funding from Intelligent Energy's Charitable Trust has enabled Community Safety Education CIC to run a large project in Loughborough, across two secondary schools, reaching approximately 800 young people.

The project provides a sustainable foundation of financial knowledge that will equip these young people with new skills and confidence that will last through their transition into adulthood, reducing vulnerability and providing future opportunities.
